Education

Sahyadri College of Engineering and Management

B.E. in Computer Science (Artificial Intelligence & Machine Learning) - CGPA: 8.87

Sept 2023 – Aug 2027

Mangalore, Karnataka

Experience

MyClickBook

Full Stack Developer Intern

May 2026 – Present

- Developed and enhanced **React Native** features for a **SaaS appointment booking platform**, implementing authentication, onboarding, vendor workflows, Google Sign-In, localization, and responsive UI from Figma designs.
- Integrated and tested **REST APIs**, performed end-to-end debugging, resolved frontend and backend issues, and collaborated using **GitLab** in an Agile development environment.

Projects

DevPilot AI | Python, FastAPI, Next.js, TypeScript, PostgreSQL, Redis, LangGraph, Docker

Jun 2026

- Built an AI-powered software engineering platform that automates GitHub pull request reviews using a **5-agent LangGraph** workflow, inline AI reviews, and automated fix suggestions, reducing manual review effort by **70-80%**.
- Architected a scalable backend with **FastAPI, Redis, Celery, and PostgreSQL**, integrating GitHub OAuth, Webhooks, and asynchronous AI processing to reduce API response time by **90%+**.
- Developed AI review dashboards, repository analytics, and secure **JWT**-based authentication and authorization.

ML Code | React.js, TypeScript, Node.js, Express.js, MongoDB

Feb 2026

- Built a **full-stack ML coding platform** with in-browser Python execution, hidden test-case evaluation, **10+** ML problem categories, secure authentication, and a competitive **LeetCode-style** learning experience.
- Developed **REST APIs** with **JWT**, Google OAuth, and MongoDB for submissions and leaderboards.
- Integrated the **Monaco Editor**, real-time code execution, analytics, discussion forums, and user dashboards.

Tulu Kalpuga | React.js, JavaScript, Python, Flask, TensorFlow, MongoDB

Nov 2025

- Built an **AI-powered Tulu learning platform** integrating a CNN-based handwriting recognition system with real-time prediction, interactive quizzes, achieving **97.9%** validation accuracy.
- Developed interactive modules for **pronunciation, writing practice, quizzes**, and progress tracking.
- Integrated a Flask-based ML API for **real-time character prediction** and AI-powered handwriting feedback.

Technical Skills

Languages: C, C++, Python, JavaScript, TypeScript, SQL, HTML, CSS

Frameworks & Libraries: React.js, Next.js, React Native, Express.js, FastAPI, Tailwind CSS, Bootstrap

Databases & Cloud: MongoDB, PostgreSQL, Redis, Firebase, Supabase, Google Cloud

Tools & Technologies: Git, GitHub, GitLab, Docker, Postman, REST APIs, Google OAuth, Linux, Vercel, Jupyter, VS Code, OpenCV, n8n, Gemini AI

Research

Multimodal Deep Learning for Automated Arecanut Quality Classification (SSRN Preprint)

- Published an SSRN preprint proposing a multimodal deep learning framework integrating RGB and X-ray imaging, achieving up to **99.80%** accuracy for automated arecanut quality classification.

Certifications

Oracle: OCI 2025 Certified Generative AI Professional

Google Cloud: Introduction to Generative AI Studio

TATA: GenAI Powered Data Analytics Job Simulation

Deloitte: Data Analytics Job Simulation

NPTEL: Python for Data Science

Infosys SpringBoard: Deep Learning for Developers

Achievements

- Finalist, Inferentia 2.0 State-Level AI Hackathon, PES University
- Finalist, Hack-A-Thon: AI for Education, ThinkPlus & SkillUp

Sept 2025

Dec 2025
